

Product Name	: Butyrospermol
Synonyms	:
Cat No.	: M31268
CAS Number	: 472-28-6
Molecular Formula	: C ₃₀ H ₅₀ O
Formula Weight	: 426.7
Chemical Name	:
Description	: Butyrospermol is a protolimonoid extracted from shea (Euphorbia). As a long-chain fatty acid ester first discovered from natural products, Butyrospermol has antifeedant and antitumor activities.
Pathway	: Others
Target	: Other Targets
Receptor	: —
Solubility	: —
SMILES	: —
Storage	: (-20°C)
Stability	: ≥ 2 years
Reference	:
