

Product Name	: Bruceoside A
Synonyms	:
Cat No.	: M31791
CAS Number	: 63306-30-9
Molecular Formula	: C ₃₂ H ₄₂ O ₁₆
Formula Weight	: 682.7
Chemical Name	:
Description	: Bruceoside A could be transformed into the potent anticancer component brusatol in vivo, rather than its direct deglycosylated metabolite bruceosin. It significantly inhibited P-388 lymphocytic leukemic cell RNA and protein synthesis in tissue culture.
Pathway	: Others
Target	: Other Targets
Receptor	: —
Solubility	: —
SMILES	: —
Storage	: (-20°C)
Stability	: ≥ 2 years
Reference	:
